

We hope you'll never have to see
how great this stuff works.

Lumi-Lite™ is currently
available on Yale's 7000
Series exit devices.

Glow with *Lumi-Lite*.
And thank Yale® for yet
another *bright* idea.

Being able to quickly find the exit and get out of the building safely during an emergency can help avoid a tragedy and should be a main priority of any building's safety plan. During a true emergency situation, where smoke could hide lighted exit signs or when the power is out, a requirement arises for non-powered emergency exit indicators.

Photoluminescent technology has been used for many years and is probably one of the most widely used forms of egress marking. Historically, this technology was primarily used by the military, but due to several tragic events in recent years, the use of photoluminescent products has been mandated by a number of international, national and state authorities concerned with life safety.

Yale® is pleased to offer Lumi-Lite™. *Lumi-Lite* is a photoluminescent powder coat material and is patent pending as an option for the touchpad cover for the *Yale 7000* series exit devices.

Features:

- No power source required
- Retrofittable to existing hardware
- Maintenance free, durable
- Re-charges by ambient light
- Approved by NYC Department of Buildings' MEA Division – passes all mandatory certifications*
- UL Approved

Applications:

- Stairwells
- Corridors
- Exit access doors
- Any doors in the means of egress

How to Order Lumi-Lite™ with Exit Device:

Specify Option: *LUM*

Model #	Size	Design	Trim	Finish	Option
7100	36	AU	626F	626	LUM

How to Order Separately:

The touchpad cover can be ordered separately and easily retrofits to existing 7000 series exit devices in the field. Touchpad cover comes standard with the word "Exit" centered on the top half in approximately 1" high lettering.

Model #	Description
730-36 LUM	36" Touchpad cover with Lumi-Lite
730-48 LUM	48" Touchpad cover with Lumi-Lite

*Materials and Equipment Acceptance (MEA) #333-05-M for 7000 Series exit devices.
 Brightness rating: 63-21-14
